1947 INTRODUCTIONS

BOKHARA

BOKHARA—Beautiful blending of soft crimson and wine shades is the originator's description, but if you can visualize that dark rich red color found in the background of expensive Turkish rugs, you have the exact picture of Bokhara. It is exceptionally hardy, a nice upright plant, good cutting stems, with very dark green disease-resistant foliage. Full double flowers on 24" plants and perfect for cutting by October 10th. If you are looking for some very nice variety that will be a headliner for years, try Bokhara. Seventy-five cents each, 3 for \$2.00.

SUMMERTIME—Remarkably early flowering, brilliant yellow single which blossoms from the middle of July until October. The blooms are single two-inch flowers of bright yellow turning to bronze yellow, fairly fragrant and carried on branching sprays. Very hardy and tough, Summertime will be a wel-

come addition to localities where the seasons are usually too short for the average hardy varieties. Planted in a permanent place, it improves yearly, and the twenty-inch compact bushy plant will spread two feet in diameter, and its dark green glossy foliage covered with bright yellow flowers will merit a good spot in everyone's garden. Seventy-five cents each, 3 for \$2.00.

WHITE WONDER—Ball-shaped Pompon, similar to Early Wonder in growing habits and form of flower. Very tall healthy plants thirty-four inches high with strong cuttable stems with clusters of crisp cream white poms. Petals first seem to be cream but they open up pure white like snow flakes. In full flower by September 25th. Seventy-five cents each, 3 for \$2.00.

KOREAN PRINCESS—The new "anemone flowered" garden Chrysanthemum and the first "anemone flowered" Hybrid Korean to be introduced. Its blossoms are rich bronze-red on opening, with a perfectly formed golden bronze cushioned center, which changes to soft strawberry crimson as they mature. Very unique. Much different than any other garden variety. Many blossoms on well-branched stems, these husky two-foot plants are in full flower October 15th. Be the first in your neighborhood to grow and enjoy the new Korean Princess. \$1.00 each.

Hardy Mums for a Riot of Color

THERE is no garden perennial so spectacular, so easy to grow, such a prolific bloomer when all other flowers are gone, as the Hardy Chrysanthemum.

Most mums are hardy and vigorous, sure to bloom, and when planted in May, June, or even in early July, will be in full bloom in late September or early October. They will give you more cut flowers for each dollar spent than any other garden plant, and can be obtained in a great range of color.

One outstanding feature of the Hardy Chrysanthemum is that it can be moved even when it is in full bud. It can be grown anywhere, and in the early fall transplanted to replace any annuals that have ceased blooming.

We offer you one hundred and forty-three varieties of proven popularity, novelties, and newer introductions, which in our opinion will please and give you satisfaction.

1946 AWARDS

At the Annual Harvest and Flower Show of the Massachusetts Horticultural Society in Boston on October 9, 10, 11, and 12, our display of Sure-to-Bloom Hardy Mums was awarded a Silver Medal, Special Prize, and the much coveted Cultural Certificate.

For best display we suggest planting in groups of three or more of each variety.

We ship only locally grown strong 2½ inch pot grown plants, all individually labelled. These will be available from mid-May till early July.

We endeavor to keep our stock true-to-name, maintaining satisfaction to our customers, and have confidence in the safe arrival of your shipment. All goods are forwarded at the purchaser's risk, but if found unsatisfactory on arrival, return to us immediately so that adjustment can be made. No complaint will be recognized later than ten days after arrival. Climatic conditions are beyond our control, so we can assume no responsibility after stock is delivered to customer in good condition.

ORDER NOW—SUPPLY LIMITED.

All orders for twelve or more plants are shipped prepaid. Less than twelve, add five cents per plant for postage and shipping.

Positively no orders can be shipped C.O.D.

OUR INVITATION

We are located on Lincoln Road in South Lincoln, almost at the Wayland Line. Why not drive out during the blooming season where you will see all these varieties in full bloom. Last September and October we had many visitors to our gardens. Many proclaimed that hardy mums sure are a riot of color just as we advertise.

SUNDANCE—Robust upright 24" plants covered with golden-bronze poms about the last week in Sept. **60c each, 3 for \$1.60.**

SUPREME YELLOW—Bright yellow cushion, 18", which starts to bloom in mid-Sept., and lasts till frost without fading. **60c each, 3 for \$1.60.**

SYMPHONY—Tall stately 36" plants with extra strong stems which bear beautiful double flowers in early Oct. A color combination of lavender, mauve, and coppery-pink. Some years this needs protection at flowering time. **40c each, 3 for \$1.10.**

THALIA—Sparkling yellow-orange single which blossoms profusely from early Sept. throughout the season. Good for mass planting, 20" high. **40c each, 3 for \$1.10.**

TIGER—Large double English variety which opens crimson, changes to bronze, then to yellow. Spectacular and very unique, because all three colors may be found on the same plant at the same time. Strong 24" plants mature Sept. 28th. **60c each, 3 for \$1.60.**

TUSSORE—Orchid pink single with yellow center. Blooms in mid-Sept. and grows 24" high. **50c each, 3 for \$1.35.**

VIOLET—1946 introduction from the U. of Minn. Double purple dahlia-like blooms of good color and substance. Darker than Chippewa and the 24" plants start flowering in late August. **60c each, 3 for \$1.60.**

WESTBOURNE—Double dark rich red. An English variety. Dis-budding and shading make this a nice mum with a little pampering. 28" plants in flower early Oct. **50c each, 3 for \$1.35.**

WHITE GOLD—Pure white cushion type with pale yellow eye. Disease resistant foliage. Starts flowering in late Aug. and the 20" plants are nice for borders. **75c each, 3 for \$2.00.**

WHITE KNIGHT—Clear ivory white double, with nice substance, good grower, 26". Starts to bloom Sept. 25th. **60c each, 3 for \$1.60.**

WHITE SPOON—Fuzzy white flowers on 24" plants coming in to flower Sept. 25th. **40c each, 3 for \$1.10.**

WHITE WONDER—See 1947 Introductions. **75c each, 3 for \$2.00.**

WM. LONGLAND—Medley of red and yellow double flowers. Good strong grower 25". In flower Sept. 20th. **60c each, 3 for \$1.60.**

YELLOW SPOON—Bright canary yellow tubes and spoons 24" high, blossoms in early Oct. **40c each, 3 for \$1.10.**
